

Planning for the Pequabuck River

Are you interested in:

- Reducing pollution in the Pequabuck River and its streams?
- Water quality in the Poland River and Coppermine Brook?
- Having “greener” and more accessible riverfront?

Towns and other partners are working together to identify pollution problems and develop a plan for improving water quality in the Pequabuck and its tributaries. Come and join us for a presentation and discussion of this project!

Wednesday, March 9
7 PM

Bristol Public Library,
Room 3

All are welcome—
you are a partner too!
