TABLE OF CONTENTS

FRWA Mission Statement i

I. Introduction 1

II. Watershed Baseline Characteristics 2

1. Historical State of the Watershed 2

2. Physical Description 2

3. Geologic Resources 4

4. Hydrography 5

III. The Farmington River Watershed: A Multitude of Uses 6

1. Drinking Water / Water Supply 7

2. Recreation 8

2. Vegetated Riparian Buffers, Stream Banks and In-Stream Habitat 10

4. Aquatic Life Habitat 11

5. Fisheries 11

B. Anadromous Fish Restoration 12

6. Wastewater Assimilation (Point Source Discharges) 13

 A. Municipal Discharge 13

 B. Industrial Discharge 14

IV. Health of the Watershed 15

1. Land Use & Population 15

2. Non-Point Source Pollution 18

3. Impervious Cover 18

4. It's a Matter of Flow 19

 A. USGS River Gages 19

 B. Water Rights 22

 C. Impoundments & History of Impoundments 22

 D. Diversions 26

1. Clean Water Act 28

2. Wild & Scenic Designation 30

3. Phase II Storm Water Management Permits 32

4. Stream Flow Standards 32

VI. Water Quality Monitoring 33

1. Existing Data..... 33

2. Chemical Parameters 34

 A. Temperature 34

 B. Dissolved Oxygen 35

 C. pH 35

 D. Alkalinity 37

 E. Turbidity 38

 F. Total Suspended Solids 39

 G. Nitrogen and Phosphorus 39

 H. Bacteria 41

3. Biological Parameters 42

 A. Benthic Macroinvertebrates 42

 B. Fish 42

4. Water Quality Trends..... 43

5. Farmington Watershed Water Quality Descriptions 43

 A. Watershed-Wide Comments 43

 B. Massachusetts Section 45

 C. Connecticut Section..... 47

 D. Watershed Tributaries & Water Bodies 50

VII. Conclusions 62

VIII. Recommendations 59

IX. Glossary of Terms 65

X. References & Links 66

List of Figures

Major Tributaries, Fig. 1

Hydrologic Cycle Diagram, Fig. 2

Groundwater/Surface Water Interaction, Fig. 3

Water Supply Reservoirs, Fig. 4

Recreational Use Pie Chart, Fig. 5

Recreational Activity Flows Chart, Fig. 6

Migration Fish Counts, Fig. 7

NPDES Permitted Discharge Sites, Fig. 8

Land Use Pie Chart, Fig. 9

Population of Watershed Towns, Fig. 10

Population Growth 1950-2000, Fig. 11

Impervious Surfaces Graph, Fig. 12

Average Yearly Discharges, Fig 13

Average Monthly Flows, Fig. 14

History of Farmington River Impoundments
and Legislation, Fig. 15

Watershed Diversions, Fig. 16

Wild & Scenic Map, Fig. 17

Ten-Year Summary: Water Quality Parameters
Bar Charts, Fig. 18-27

Connecticut Water Quality Classifications--
Bacteria, Fig. 28

USGS Monitoring Stations/ Ten-Year Water
Quality Trend Analysis, Fig. 29

Watershed Subsections and Farmington
River Mainstem, Fig. 30-38

List of Appendices

- Appendix A:** Maps of the Watershed
Watershed Locator
Surficial Geology
Recreation and Fisheries
NPDES Permitted Discharges Map
Watershed Land Use
USGS Flow Gages
Dams / Impoundments
Registered and Permitted Diversions
Water Quality Classifications
Water Quality Impairments
- Appendix B:** Excerpts from Water Quality Standards, CT DEP December 17, 2002
Inland Surface Water Classifications and Criteria
Lake Trophic Categories
Benthic Invertebrate Criteria
Water Quality Criteria for Bacterial Indicators of Sanitary Quality
- Appendix C:** Massachusetts Inland Class Standards
- Appendix D:** Water Utilities of the Watershed and Population Served
- Appendix E:** Reservoirs of the Watershed
- Appendix F:** Use and Economic Importance of the West Branch of the Farmington River, North Carolina State University -- Conclusions & Recommendations
- Appendix G:** Summary: Farmington Valley Biodiversity Project
- Appendix H:** Memo Regarding: CT DEP Goals for Anadromous Fish Restoration Program
- Appendix I:** Scientists' Ability to Study Water Issues in Connecticut May be Compromised by Lack of Funding
- Appendix J:** Sewer Treatment Plants of the Watershed: Current Operational Status
Summary Chart
- Appendix K:** To Drawdown or Not to Drawdown? Newsletter of the Farmington Watershed Team, April 2002.
- Appendix L:** Ecological Needs – The Need for an In-Stream Flow Standard, MacBroom Article
- Appendix M:** Mattabesset River Watershed Intensive Water Quality Surveys Criteria for Water Quality Indicators
- Appendix N:** Consumptive vs. Non-Consumptive Diversions of the Watershed
